Michele Pasqua

Academic Curriculum Vitæ

Assistant Professor (non-tenured)

Department of Computer Science - University of Verona, Italy

Education

2015–2018 **PhD in Computer Science**, *University of Verona*, Italy.
Scholarship holder

2013–2015 **MSc in Computer Science and Engineering**, *University of Verona*, Italy, *110/110 cum laude*.
Curriculum: Software Engineering and Security

2009–2013 **BSc in Computer Science**, *University of Verona*, Italy, *97/110*.
Curriculum: General Computer Science

PhD Thesis

Title *"Hyper Static Analysis of Programs – An Abstract Interpretation-Based Framework for Hyperproperties Verification"*

Supervisor Prof. Isabella Mastroeni

Referees Prof. Antoine Miné, Prof. David A. Naumann

Description In my PhD I have developed a methodology to verify, trough static analysis, hyperproperties of computer programs. In particular, the focus is on information-flow hyperproperties, which are very pervasive in systems security. The approach is based on abstract interpretation, a very powerful formal framework for the approximation of programs' semantics. My thesis represents the first systematic approach leveraging abstract interpretation to hyperproperties verification.

Masters Thesis

Title *"A semantic approach to Software Watermarking – A general model based on Abstract Interpretation"*, Original: "Approccio semantico al Software Watermarking – Un modello generale basato su Interpretazione Astratta"

Supervisor Prof. Mila Dalla Preda

Description The thesis gives a semantic formulation of software watermarking. In particular, the thesis presents a general mathematical definition for watermarking systems, based on abstract interpretation. With this latter, it is possible to measure the features (*e.g.,* resilience, secrecy, accuracy) of existing watermarking techniques and to perform comparisons between different watermarking techniques.

PhD Schools

2018 **Midlands Graduate School in the Foundations of Computing Science (MGS18)**, *University of Nottingham*, UK.

2017 **Italian Summer School of Logic**, *The University of Milan*, Italy.

2016 **Security and Trust of Next Generation Enterprise Information Systems**, *FBK – Bruno Kessler Foundation*, Italy.

2014 **International Summer School on Information Security and Protection (ISSISP14)**, *University of Verona*, Italy.

Teaching and Supervising

Teaching

2022 **Lecturer and Instructor**, *University of Verona*, Italy, "Training program in cybersecurity".
CyberChallenge.IT

2021/2022 **Professor (Course Coordinator)**, *University of Verona*, Italy, Course: "Informatics and multimedia production" (INF/01).
MSc in Publishing and Journalism

2021 **Lecturer and Instructor**, *University of Verona*, Italy, "Training program in cybersecurity".
CyberChallenge.IT

2020 **Lecturer and Instructor**, *University of Verona*, Italy, "Training program in cybersecurity".
CyberChallenge.IT

2017/2018 **Teaching Assistant**, *University of Verona*, Italy, Course: "Logic" (INF/01).
BSc in Computer Science

2016/2017 **Teaching Assistant**, *University of Verona*, Italy, Course: "Programming for Bioinformatics" (INF/01).
BSc in Bioinformatics

2015/2016 **Teaching Assistant**, *University of Padova*, Italy, Course: "Automata and Formal Languages" (INF/01).
BSc in Computer Science

Supervising

2022 **MSc Thesis Co-Supervisor**, *University of Udine*, Italy, Student: Massimo Comuzzo.
Implementation of an ECA rules language with attribute-based distributed communications
Supervisor: Prof. Marino Miculan

2020/2021 **Projects Supervisor**, *University of Udine*, Italy, Course: "Distributed Systems" (INF/01).
MSc in Computer Science

2020/2021 **Projects Supervisor**, *University of Verona*, Italy, Course: "Cyber-Security for IoT" (INF/01).
MSc in Computer Engineering for Robotics and Smart Industry

2018 **BSc Thesis Co-Supervisor**, *University of Verona*, Italy, Student: Jenny Bonato.
Model Checking for Security – Extending Temporal Logic in Order to Deal with Information Flows
Supervisor: Prof. Isabella Mastroeni

2018 **BSc Thesis Co-Supervisor**, *University of Verona*, Italy, Student: Michele Pasetto.
Secure Multi-Execution – An Elegant Enforcement Mechanism for Information Flow Security
Supervisor: Prof. Isabella Mastroeni

Research

My main research interests are in the field of formal methods for security and programming languages; with particular attention to program verification and semantics, code protection, malware detection, compilation, distributed systems and functional testing. Some keywords:

- abstract interpretation
- property and hyperproperty verification
- system semantics
- (modular) static analysis
- language-based security
- type systems
- process algebra
- bisimulation theory
- IoT and CPS security
- software watermarking and obfuscation
- metamorphic malware
- event-driven architecture
- attribute-based communication
- distributed systems
- REST APIs
- black-box testing
- security testing
- statistical model-checking

Actually, I am exploring new research topics, such as the security/correctness of blockchain-based programs (smart-contracts) and the verification of quantum programming languages.

Past positions

2021 **Postdoctoral Researcher**, *University of Udine*, Italy, Department of Mathematics, Computer Science and Physics.
Prof. Marino Miculan

2019 – 2020 **Postdoctoral Researcher**, *University of Verona*, Italy, Department of Computer Science.
Prof. Massimo Merro

Participation in Research Projects

2022-2023 **Principal Investigator**, *SNSF project "Metamorphic Hyperproperty Testing" (2022-2023)*, Funded by "Swiss National Science Foundation", Coordinator: Prof. Paolo Tonella.

2021 **Research assistant**, *Joint project "Build Trust Proof of Concept" (2021)*, Funded by "University of Verona and Build Trust Srl", Coordinator: Prof. Franco Fummi.

2020–2022 **Research assistant**, *PRIN project "IT MATTERS - Methods and Tools for Trustworthy Smart Systems" (2019-2022)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Rocco De Nicola.

2019–2022 **Research assistant**, *PRIN project "ASPRA - Analysis of Program Analyses" (2019-2022)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Roberto Giacobazzi.

2018–2020 **Research assistant**, *Joint project "SAINTS - Security Static Analysis for Android Things" (2018-2020)*, Funded by "University of Verona and JuliaSoft Srl", Coordinator: Prof. Massimo Merro.

2018–2020 **Research assistant**, *Project "ARES - Analyzing Modern Software Security" (2018-2020)*, Funded by "University of Verona", Coordinator: Prof. Isabella Mastroeni.

2016–2017 **Research assistant**, *MIUR project "FACE - Formal Avenue for Chasing malwarE" (2014-2018)*, Funded by "FIRB - Futuro in ricerca 2013", Coordinator: Dr. Mila Dalla Preda.

Research Visits

2022-2023 **Università della Svizzera Italiana**, *SNSF project "Metamorphic Hyperproperty Testing" (2022-2023)*, Funded by "Swiss National Science Foundation", Coordinator: Prof. Paolo Tonella.

2018 **Sorbonne Université**, *ERC project "MOPSA: Modular Open Platform for Static Analysis" (2016-2021)*, Funded by "European Research Council (Consolidator Grant Agreement 68139)", Coordinator: Prof. Antoine Miné.

Committees and Reviewing

2022 **Program Committee Member**, *22nd IEEE International Working Conference on Source Code Analysis and Manipulation (SCAM 2022)*, Research Track, October 3-4, 2022.
Limassol, CY

2022 **Proceedings and Local Chair**, *22nd IEEE International Working Conference on Source Code Analysis and Manipulation (SCAM 2022)*, Research Track, October 3-4, 2022.
Limassol, CY

2022 **Guest Reviewer**, *Journal of Systems and Software*, Journal, Elsevier.

2022 **Guest Reviewer**, *Automated Software Engineering*, Journal, Springer.

2019 **Program Co-Chair**, *11th International Conference on Advances in System Testing and Validation Lifecycle (VALID 2019)*, Special Track "Formal Methods for Software Analysis and Verification", November 26, 2019.
Valencia, ES
