

Michele Pasqua

Academic Curriculum Vitæ

Assistant Professor

Department of Computer Science - University of Verona,
Italy

Education

2015–2018 **PhD in Computer Science**, University of Verona, Italy.

Scholarship holder

2013–2015 **MSc in Computer Science and Engineering**, University of Verona, Italy, 110/110
cum laude.

Curriculum: Software Engineering and Security

PhD Thesis

Title “Hyper Static Analysis of Programs – An Abstract Interpretation-Based Framework for Hyperproperties Verification”

Supervisor Prof. Isabella Mastroeni

Referees Prof. Antoine Miné, Prof. David A. Naumann

Description In my PhD I have developed a methodology to verify, through static analysis, hyperproperties of computer programs. In particular, the focus is on information-flow hyperproperties, which are very pervasive in systems security. The approach is based on abstract interpretation, a very powerful formal framework for the approximation of programs' semantics. My thesis represents the first systematic approach leveraging abstract interpretation to hyperproperties verification.

Available at <https://doi.org/10.5281/zenodo.6584085>

Masters Thesis

Title “A semantic approach to Software Watermarking – A general model based on Abstract Interpretation”, Original: “Approccio semantico al Software Watermarking – Un modello generale basato su Interpretazione Astratta”

Supervisor Prof. Mila Dalla Preda

Description The thesis gives a semantic formulation of software watermarking. In particular, the thesis presents a general mathematical definition for watermarking systems, based on abstract interpretation. With this latter, it is possible to measure the features (e.g., resilience, secrecy, accuracy) of existing watermarking techniques and to perform comparisons between different watermarking techniques.

PhD Schools

2018 **Midlands Graduate School in the Foundations of Computing Science (MGS18)**, University of Nottingham, UK.

2017 **Italian Summer School of Logic**, The University of Milan, Italy.

2016 **Security and Trust of Next Generation Enterprise Information Systems**, FBK – Bruno Kessler Foundation, Italy.

Via Cartiera 4 – San Giovanni Lupatoto (VR), 37057, Italy

2014 **International Summer School on Information Security and Protection (ISSISP14)**,
University of Verona, Italy.

Teaching and Supervising

Teaching

- AY 2024/2025 **Professor (Course Coordinator)**, *University of Verona, Italy*, Course: “Principles and Applications of Abstract Interpretation”.
PhD Programme in Computer Science
- AY 2023/2024 **Professor (Lab Instructor)**, *University of Verona, Italy*, Course: “Cyber-security for IoT”.
MSc in Computer Engineering for Robotics and Smart Industry
- AY 2021/2022 **Professor (Course Coordinator)**, *University of Verona, Italy*, Course: “Informatics and multimedia production”.
to MSc in Publishing and Journalism
AY 2023/2024
- 2020 to 2023 **Lecturer and Instructor**, *University of Verona, Italy*, “Training program in cybersecurity”.
CyberChallenge.IT
- AY 2017/2018 **Teaching Assistant**, *University of Verona, Italy*, Course: “Logic”.
BSc in Computer Science
- AY 2016/2017 **Teaching Assistant**, *University of Verona, Italy*, Course: “Programming for Bioinformatics”.
BSc in Bioinformatics
- AY 2015/2016 **Teaching Assistant**, *University of Padova, Italy*, Course: “Automata and Formal Languages”.
BSc in Computer Science

Supervising

- 2024 **MSc Thesis Supervisor**, *University of Verona, Italy* (Scientific Sector: Informatics).
MSc in Computer Science and Engineering – *Supervisor of 3 MSc theses*
- 2023 to 2024 **MSc Thesis Supervisor**, *University of Verona, Italy* (Scientific Sector: Informatics).
MSc in Publishing and Journalism – *Supervisor of 4 MSc theses*
- 2022 to 2024 **MSc Thesis Co-Supervisor**, *University of Verona, Italy* (Scientific Sector: Informatics).
MSc in Computer Science and Engineering – *Co-Supervisor of 6 MSc theses*
- 2022 **MSc Thesis Co-Supervisor**, *University of Udine, Italy* (Scientific Sector: Informatics).
MSc in Computer Science – *Co-Supervisor of 1 MSc thesis*
- 2022 **BSc Thesis Co-Supervisor**, *University of Udine, Italy* (Scientific Sector: Informatics).
MSc in Computer Science – *Co-Supervisor of 1 BSc thesis*
- 2018 to 2022 **BSc Thesis Co-Supervisor**, *University of Verona, Italy* (Scientific Sector: Informatics).
BSc in Computer Science – *Co-Supervisor of 3 BSc theses*

Research

My main research interests are in the fields of **software engineering** and **formal methods** for programming languages; with particular attention to functional and security testing, program verification and semantics, language-based security, distributed systems design, code protection and malware detection. Some keywords:

- abstract interpretation
- property and hyperproperty verification
- system semantics
- (modular) static analysis
- type systems
- process algebra
- bisimulation theory
- IoT and CPS security
- REST APIs
- black-box testing
- software watermarking and obfuscation
- metamorphic malware
- event-driven architecture
- autonomic systems
- security testing
- statistical model-checking

Actually, I am exploring new research topics, such as the security/correctness of blockchain-based programs (smart-contracts) and the verification of quantum programming languages.

Past Positions

Oct 1, 2021 to Dec 31, 2021 **Postdoctoral Researcher**, *University of Verona*, Italy, Department of Computer Science.
Project: Automatic Black-Box Testing of RESTful API
Supervisor: Prof. Mariano Ceccato

Oct 1, 2020 to Sep 30, 2021 **Postdoctoral Researcher**, *University of Udine*, Italy, Department of Mathematics, Computer Science and Physics.
Project: Methods and Tools for Trustworthy Smart Systems: Innovative Programming Models and Paradigms
Supervisor: Prof. Marino Miculan

Oct 1, 2018 to Sep 30, 2020 **Postdoctoral Researcher**, *University of Verona*, Department of Computer Science.
Project: Security Static Analysis for Android Things
Supervisor: Prof. Massimo Merro

Participation in Research Projects

2023 to Present **Research Assistant**, *PRIN project "Smartitude: Automated Testing and Security Assessment of Smart Contracts" (2023-2025)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Dr. Dario Di Nucci.

2021 to Present **Principal Investigator**, *PON project "Integrazione di servizi rivolti al cittadino per facilitare la corretta raccolta differenziata dei rifiuti urbani" (2021-2024)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Mariano Ceccato.

2023 **Research Assistant**, *Project "Automated Testing of REST APIs"*, Funded by "Muscope Cybersecurity Srl", Coordinator: Prof. Mariano Ceccato.

2023 **Research Assistant**, *Project "Machine Learning for automated testing of REST APIs"*, Funded by "Equixely Srl", Coordinator: Prof. Mariano Ceccato.

2022 to 2023 **Principal Investigator**, *SNSF project "Metamorphic Hyperproperty Testing" (2022-2023)*, Funded by "Swiss National Science Foundation (Switzerland)", Coordinator: Prof. Paolo Tonella.

2021 **Research Assistant**, *Joint project "Build Trust Proof of Concept" (2021)*, Funded by "University of Verona and Build Trust Srl", Coordinator: Prof. Franco Fummi.

2020 to 2022 **Research Assistant**, *PRIN project "IT MATTERS - Methods and Tools for Trustworthy Smart Systems" (2019-2022)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Rocco De Nicola.

2019 to 2022 **Research Assistant**, *PRIN project "ASPR - Analysis of Program Analyses" (2019-2022)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Roberto Giacobazzi.

2018 to 2020 **Research Assistant**, *Joint project "SAINTS - Security Static Analysis for Android Things" (2018-2020)*, Funded by "University of Verona (Italy) and JuliaSoft Srl", Coordinator: Prof. Massimo Merro.

2018 to 2020 **Research Assistant**, *Project "ARES - Analyzing Modern Software Security" (2018-2020)*, Funded by "University of Verona (Italy)", Coordinator: Prof. Isabella Mastroeni.

2016 to 2017 **Research Assistant**, *FIRB project "FACE - Formal Avenue for Chasing Malware" (2014-2018)*, Funded by "Ministry of Education, University and Research (Italy)", Coordinator: Prof. Mila Dalla Preda.

Fundings

2023 **Direct Allocation**, *Technology consulting agreement*, Amia Verona Spa (Italy).
Consulting activities concerning the information system and the IoT infrastructure, for a total compensation of 15'660 before VAT.

- 2023 **Competitive Grant**, *Fondo Italiano per le Scienze Applicate (FISA) 2022*, Ministry of Education, University and Research (Italy).
Principal Investigator of the project “Distributed Reactive Internet of Things” (proposal n. FISA-2022-00571, Information and Communication Technology), selected for a funding amount of 1'070'000 (project not funded due to budget saturation).
- 2022 **Competitive Grant**, *SNSF Scientific Exchange Programme 2022*, Swiss National Science Foundation (Switzerland).
Principal Investigator of the project “Metamorphic Hyperproperty Testing” (proposal n. IZSEZO_213565), granted with a funding amount of CHF 18'500.

Research Visits

- 2022 to 2023 **Software Institute - Università della Svizzera Italiana (Lugano, Switzerland)**, *SNSF project “Metamorphic Hyperproperty Testing” (2022-2023)*, Funded by “Swiss National Science Foundation (Switzerland)”, Coordinator: Prof. Paolo Tonella (6 months).
- 2018 **Laboratoire d'informatique de Paris 6 - Sorbonne Université (Paris, France)**, *ERC project “MOPSA: Modular Open Platform for Static Analysis” (2016-2021)*, Funded by “European Research Council (Consolidator Grant Agreement 68139)”, Coordinator: Prof. Antoine Miné (2 months).

International Collaborations

- 2022 to Present **Academic**, *Software Institute - USI*, Lugano (Switzerland).
Topic: Hypertesting of Program
Main contact: Prof. Paolo Tonella
- 2021 to 2022 **Academic**, *Georgia Institute of Technology*, Atlanta (USA).
Topic: REST API Testing
Main contact: Prof. Alessandro Orso
- 2021 to 2022 **Industrial**, *IBM Research*, Yorktown Heights (USA) and Haifa (Israel).
Topic: REST API Testing
Main contacts: Dr. Saurabh Sinha and Dr. Rachel Tzoref-Brill
- 2018 to 2020 **Academic**, *KTH Royal Institute of Technology*, Stockholm (Sweden).
Topic: Formal Methods for IoT Security
Main contact: Prof. Musard Balliu

Committees and Reviewing

- ISSTA25 **Program Committee Member**, *34th ACM International Symposium on Software Testing and Analysis*, June 25-28, 2025.
Trondheim, NO
- ICST25 **Publicity Co-Chair**, *18th IEEE International Conference on Software Testing, Verification and Validation*, May, 2025.
Naples, IT
- SCAM24 **Program Committee Member**, *24th IEEE International Working Conference on Source Code Analysis and Manipulation – Research Track; New Ideas and Emerging Results Track*, October, 2024.
Flagstaff, US
- NSAD24 **Program Co-Chair**, *10th ACM SIGPLAN International Workshop on Numerical and Symbolic Abstract Domains*, October 22, 2024.
Pasadena, US
- PeerJ CS **Editorial Board Member**, *PeerJ Computer Science*, Journal, PeerJ (from March 22, 2024).
- SAS24 **Program Committee Member**, *31st Static Analysis Symposium*, October 20-22, 2024.
Pasadena, US
- LiSSAI24 **Organizing Committee Member**, *Lipari Summer School on Abstract Interpretation*, September 1-7, 2024.
Lipari, IT
- ECAI24 **Program Committee Member**, *27th European Conference on Artificial Intelligence*, October 19-24, 2024.
Santiago de Compostela, ES
